

REMARKS

This amendment is filed in order to correct formal matters. In particular, the specification, as originally filed, contains 20 drawings. However, in the brief description of the drawings, the description of Figs. 15-20 were inadvertently omitted. This amendment merely adds the description of the drawings. The amendment requires no substantial amount of additional work on the part of the Examiner. It is respectfully requested that the Examiner approve the corrections.

Thus it now appears that the application is in condition for issuance. Reconsideration and issuance at an early date are respectfully requested.

If for any reason the Examiner feels the application is not now in condition for issuance, it is respectfully requested that the Examiner contact, by telephone, the applicant's undersigned attorney at the indicated telephone number to arrange for an interview to expedite the disposition of this case.

In the event this paper is not timely filed, applicant hereby petitions for an appropriate extension of time. The fee for this extension may be charged to our Deposit Account No. 01-

2395, along with any other additional fees which may be required
with respect to this paper.

Respectfully submitted,
